

## Free training for administrators!

Come join the Long Island STEM Educators Leadership Association (LISTEMELA) for a free all day training with NGSS veteran teacher and professional developer Elizabeth Mirra. She will provide an overview of the new standards and a structure for how to systematically roll out professional development with K-12 teachers. You will walk away with resources you can put into practice with your staff right away. Lunch will be provided.

Liz Mirra has 20 years of experience working as a science educator and science instructional coach. As a classroom teacher, she had remarkable success boosting students' motivation and achievement in science. She was involved in reviewing and providing feedback on the Next Generation Science Standards throughout their development and has worked with dozens of schools and districts throughout the United States providing professional development and assistance aligning curriculum and assessments to the new standards. Liz was the 2011 recipient of the prestigious Presidential Award for Excellence in Science Teaching.

The training will be held on October 16th from 8:00-3:00 in Farmingdale at the administration building which is adjacent to Howitt Middle School located at 70 Van Cott Ave, Farmingdale. Please use the entrance on Grant Street and have ID with you as you enter the building.

Seating is limited. If you would like to attend, please complete this Google Form:
